

# Sullair SRF II/8000™

8000 Hour Compressor Fluid

*High in quality but relatively low in cost.*

## Key Benefits

- Resistance to breakdown extends performance to 8000 hours or 1 year, under normal operating conditions.
- Lower maintenance, labor and disposal costs because fewer fluid changes are required.
- Easy to dispose of because used fluid is a non-hazardous waste, readily accepted by oil recycling companies.
- Excellent demulsibility. Increases operating efficiency of oil/condensate separator systems.

## SRF II/8000™. Your One Year/8000 Hour Advantage

- High viscosity index provides shear stability.
- High temperature stability improves viscosity stability
- Low temperature fluidity improves cold ambient startups.

### Environmentally friendly

A hydro-treated paraffinic fluid, SRF II/8000™ separates readily from water. This compressor fluid can be disposed of along with your installation's regular mineral oils.

### Free lubricant analysis

Analysis of SRF II/8000 performance in your compressor can be obtained without cost from your Sullair distributor.
